

When the Lady's Hurt

[Kovacs](#)

Hey babe
You like to lay it on me
You like to lay it on, on meHey babe
You like to put it on me
You like to put it on, on meAnd when the lady's hurt
Upset the burn
Make it a full stab verse
She leaves the hurtOooohhhhhhHey babe
You like to blame it on me
You like to blame it on, on me
But hey way
You like to feel me tasty
You like to dip it al
And waste meAnd when the lady's burned
She'll drop the curse
Go in to show shop verse
and then she'll make it worseGuess your _ has gone
Around that some down
Know the perfect alley
Back in _ town howAnd when the lady's hurt
She'll drop the curse
Go in to show shop verse
That make it worse
And when the lady's hurt
Black and blurred
She'll made you skin bob verse
And by the curseI'll die by your side
Die by your side
tonight
