Nobody's Singin' to Me

Charice

Every time you go I'm in the shadows
Every day you know the pain inside grows
Without you I lose the way
Fall apart, go insaneUsed to be I'd hide inside the TV
Lately that's not really workin' for me
No one with anythin' to say
Not to me, not to meOn and on and on the days drone
I need a songWhat to do? Tell me what I gotta do
I can't sustain now the way I'm missin' you
So I turn the radio up lookin' for a melody
But nobody's singin' to meIt's a blur, don't remember what I heard
You said goodbye, now I don't know where to turn
So I turn the radio up thinkin' I'm gonna find relief
But baby, nobody's singin' to meEvery night I'm just a victim of the silence
Nothin' there to help, I tell you love is violence
Hurts more and more with each day
If you're askin' me the price is paidUsed to be that I could call on my DJ
Tell him what it is that he could play, play, play
Play those words I wanna sing along
Make me feel nothin' is wrongWhat to do? Tell me what I gotta do
I can't sustain now the way I'm missin' you
So I turn the radio up lookin' for a melody
But nobody's singin' to meIt's a blur, don't remember what I heard
You said goodbye, now I don't know where to turn
So I turn the radio up thinkin' I'm gonna find relief
But baby, nobody's singin'One word to take away this hurt
Waitin' for one dream to bring you back to me, oh
I need a songWhat to do? Tell me what I gotta do
I can't sustain now the way I'm missin' you
So I turn the radio up lookin' for a melody
But nobody's singin' to meIt's a blur, don't remember what I heard
You said goodbye, now I don't know where to turn
So I turn iPod up thinkin' I'm gonna find relief
But baby, nobody's singin' to meWhat to do? Tell me what I gotta do
I can't sustain now the way I'm missin' you
So I turn the radio up thinkin' I'm gonna find relief
But baby, nobody's singin' to me, oh yeah
