Make Us Insane

[Powerman 5000](#)

Advisory - the following lyrics contain explicit language:

You're like a satellite
Spinning down from the sky tonight
You're blazing a trail with your horns and your tail
Like a god damn parasiteSo make us insane, make us insane
Make us insane, make us insane
We're all going down and up in flames
Tonight, tonightYou're like an atom bomb
Dropping down on a world of right and wrong
You gave us a choice with your deadliest voice
And made us all want to sing alongThat's when the lights go down and the room turns red
The people all scream, they say rock is dead
And that's how it goes if you like it or not
Now we're all catching hell 'cause the devil was hotSo make us insane, make us insane
Make us insane, make us insane
We're all going down and up in flames
Tonight, tonightMake us insane, make us insane
Make us insane, make us insane
We're all going down and up in flames
Tonight, tonightThat's when the lights go down
That's when the lights go downThat's when the lights go down and the room turns red
The people all scream, they say rock is dead
That's how it goes if you like it or not
Now we're all catching hell 'cause the devil was hotSo make us insane, make us insane
Make us insane, make us insane
We're all going down and up in flames
Tonight, tonightSo, make us insane, make us insane
Make us insane, make us insane
We're all going down and up in flames
Tonight, tonightMake us insane, make us insane
Make us insane, make us insane
We're all going down and up in flames
Tonight, tonightThat's when the lights go down and the room turns red

Tonight, tonight
That's when the lights go down and the room turns red
Tonight, tonight
