

Ask the Mountains

Vangelis

Don't come after
Don't come after
Don't come after
Come, come
Come, comeDon't come after
Don't come after
Please don't follow me along
When you read this I'll be goneAsk the mountains, springs and fountains
Why couldn't this go on?
Couldn't our happiness go on?
Ask the sun that lightens up the sky
When the night gives in, to tell you whyAsk the mountains
Wild woods, highlands
Ask the green in the woods and the trees
The cold breeze coming in from the seaSprings and fountains
Ask the mountains
Springs and fountains
Ask the mountainsSprings and fountains
Ask the mountains
Springs and fountains
Ask the mountainsAsk the sun that lightens up the sky
When the night gives in, to tell you why
Tell the mountains
Springs and fountainsWhy couldn't this go on?
Couldn't our happiness go on?
Why couldn't this go on?
Couldn't our happiness go on?
