Change Your World

TiÃ«sto

Where is the girl with the fire in her eyes, I used to know
Where is the girl with the fire deep inside, did you let it go
Lonely nights awakening, turning tears in all
I know your heart is breaking

If you let me I will stay
I will change your world
Bring your sunlight when it rains
I will change your world

I will dry you eyes, bring you back to lie
If you let me, I will change your world

You have a torch, let it burn from within
Don't be afraid
You have a light, let it shine once again
Now don't you wait
Lonely nights awakening, turning tears in all
I know your heart is breaking

If you let me I will stay
I will change your world
Bring your sunlight when it rains
I will change your world

I will dry your eyes, bring you back to life
If you let me, I will change your world
