

# Change Your World

TiÃ«sto

Where is the girl with the fire in her eyes, I used to know  
Where is the girl with the fire deep inside, did you let it go  
Lonely nights awakening, turning tears in all  
I know your heart is breaking

If you let me I will stay  
I will change your world  
Bring your sunlight when it rains  
I will change your world

I will dry your eyes, bring you back to lie  
If you let me, I will change your world

You have a torch, let it burn from within  
Don't be afraid  
You have a light, let it shine once again  
Now don't you wait  
Lonely nights awakening, turning tears in all  
I know your heart is breaking

If you let me I will stay  
I will change your world  
Bring your sunlight when it rains  
I will change your world

I will dry your eyes, bring you back to life  
If you let me, I will change your world
