

Ice Black Sand

Reptar

No suspicion
Not common sense
What is it?
Pain or memory?
Artist or fake?
No good reason to be part of it
Like open letters on the heart of it
No good person in the bar tonight
Floating out onto the tongue tonight
No good person in the heart of life
Night on the coast
Laying on my back
Who doesn't need a man like that?
No good person in the heart of life (x4)
Words flow out into an open mouth
No good person in the heart of life
