

You're The One

The Everly Brothers

Tenderly, tenderly
Come to me tenderly
You're the one I love, you're the one I love
Hold me near, hold me tight
When you're near, it's so right
You're the one I love, you're the one I love

Baby, don't you be afraid to love me, love me
Baby, don't you be afraid to love me
And I'll be good to you
Come to me, come to me
Tenderly, come to me
You're the one I love, you're the one I love

Baby, don't you be afraid to love me, love me
Baby, don't you be afraid to love me
And I'll be good to you
Come to me, come to me
Tenderly, come to me
You're the one I love, you're the one I love
