Found Love

Joi Cardwell

I found love
I finally found loveI found someone
Who will always love me
Ive found
Deep inside
Something I cannot hide
It was you
Only you
Who showed
The magic that love can doEven more than Ive known before
I can only imagine whats
In store
Cause Ive found
Happiness
And Ive found someone to love me
I found deep inside something I cannot hideI cant believe I found love
I found love found love
Ive found love
Well I found it.Yes known love before
But in my eyes only
In your sweet embrace
My heart
Has found a place
What could I do
But fall for you
The lover that makes
all dreams come trueEven more than Ive known before
I can only imagine whats
In store
Cause Ive found
Happiness
And Ive found someone to love me
I found deep inside something I cannot hideI cant believe I found love
I found love found love
Ive found love
Well I found it.Looking to the skies above me
The path I found was never far
Gone were the ties that had bound me
I come to you with open arms

What we have I want forever
A bond so strong willl never fail
Example to the world around me
True love will always prevail.I found it
Found love.
