Alabaster

Soulpreacher

She's up in the sky
She's up in the domes
She's up in the sky
Up in the dome
I knew a girl who came from Villa Luz
Had a house filled with
Religious regret and infinite debt
Heaven's pressure
She's a light in the dark
She's out of the fire
She's up in the sky
Up in the domes
Alabaster lover
You won't get more
We make each other
You won't get more
Alabaster lover
You won't get more
We make each other
You won't get more
She's up in the sky

And the sky is on fire
She said the hope
Make the hope to lie
Then in a peep hole
I will read out all of their names
Run away, run away, run away
And with victory
The whole world would be ours
We will feel nothing ever
Nothing ever
Alabaster lover
You won't get more
We could make each other
You won't get more
Alabaster lover
You won't get more
We made each other

You won't get more
Alabaster lover
We made each other
