

Creature of Desire

Visigoth

Yeeeahhhh!

For a long time I have roamed
These barren, heartless streets alone
Where the burning stars seemed far away
But in the dark of night I've seen
The moon arising in my dreams
She is here and we'll set the world ablaze
Fire and steel
Smoke and burning wheels
She's my goddess of the night
Leather and spikes
I wanna treat her right
This warrior queen here at my side
Two wheels are burning down the road and she's on fire
And we are riding like the wind
I'm free at last and she's a creature of desire
And we will never kneel again
We are the rulers of the street
No submission, no retreat
We are starfire in the blazing sky
On a metal beast we ride
As we tear on through the night
We have tasted freedom and we won't die
Fire and steel
Smoke and burning wheels
She's my goddess of the night
Leather and spikes
I wanna treat her right
This warrior queen here at my side
Two wheels are burning down the road and she's on fire
And we are riding like the wind
I'm free at last and she's a creature of desire
And we will never kneel again
Two wheels are burning down the road and she's on fire
And we are riding like the wind
I'm free at last and she's a creature of desire
And we will never kneel again
Two wheels are burning
I'm free at last!
Two wheels are burning
I'm free at last!
Yeaah!
