

# Fantasy

## Timbaland

Let me show you boy  
Are you ready? Fantasy  
It could be, couldn't we  
Wildest thing, ever dreamed, boy  
So what will it be? Just lookin' at you, shorty, lights a flame inside  
I'm wonderin' if you can come and help put out the fire  
But you can get at me baby, tell me what you like  
'Cause I can be your all boy, I can be your love toy If you ain't busy baby, I'm all yours tonight  
Let imagination take us for a thing in mind  
Travellin' in a dream we can bring something to life  
That no one's ever seen yet, can I? Show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the  
Wildest thang ever dreamed, boy Let me show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the  
Wildest thang ever dreamed, boy 'Cause think of all the tasty things that we can try  
The karma you can have being within money can buy  
We ain't even gotta keep it quiet  
Boy, all my walls are sound proof, I can scream your name boo Let me tell ya house, we will not disturb  
I found a place our neighbors you get all that you deserve  
Boy, I got it somewhere if you can conjure up the nerve  
To come see what it feels like, can I? Show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the  
Wildest thang ever dreamed, boy Let me show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the  
Wildest thang ever dreamed, boy Touch it, touch it, feel it, roll around it, and if you like  
Taste it, taste it, and embrace it again a second time  
Don't you waste it, you'll regret it, 'cause I can satisfy  
Any fantasy that you can come with, can I? Let me show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the  
Wildest thang ever dreamed, boy Let me show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the  
Wildest thang ever dreamed, boy Let me show you what it's like beyond your fantasy  
It could be, couldn't we  
Might just get it hot up in the

Might just get it hot up in the  
Wildest thang ever dreamed, boy
