## Ultraspank

Invite yourself, feel like a bad case of fleas  
Parasitic ploy fills and obvious need Set me up cut me down, cash me in spit me out  
Thanks for nothing, nothing Stealing the fire from the unsuspecting freak  
Opportune time to perpetuate the breed Set me up cut me down, cash me in spit me out  
Thanks for nothing, nothing The pressure builds, the balance sets  
The level tilts as thoughts compress Try your best you will, to bury my head in the sand  
Keep me lost in the dark with the promise of a new spark Played me drained me, tried your best to win  
Played me drained me you try, try Plowing your way through a delicate maze  
Crushing the dreams that a lifetime made  
Rest will come easy as the planets fall in line  
Karma piling up will catch in time Set me up cut me down, cash me in spit me out  
Thanks for nothing, nothing Played me drained me, tried your best to win  
Played me drained me you try, try  
Sit down sit down sit down sit down
