

# Girl I Need (feat. Cham)

Mario

I want a girl that can really blow my mind, I mean  
An extraordinary one of a kind, I mean  
A banging body like a CL5 double 'O' but that ain't all, oh no I need a girl that's smart and really intelligent  
A girl with heart, somebody who don't take no shit  
And if you're out there make yourself known, I mean  
Because I'm looking for somebody Who gon' ride with me, die with me, cry with me  
Live with me, who gon' go with me, till the end with me  
That's the kinda girl that I need She don't want my money, she just wants me only  
And when I need loving she quick to put it on me  
Mami's a soldier and a roller, I mean and that's just the girl I need La dee dee, la dee dee dee, la dee day  
If your out there girl on my way  
La dee dee, la dee dee dee, la dee day  
I'm find you one of these days I want a girl that can hook up a shoe, I mean  
A Gucci sandle or them Jimmy Choo's, I mean  
She could find a pair of timbs or some  
Air force ones and still look the bomb I need a girl that's smart and really intelligent  
A girl with heart somebody who don't take no shit  
And if you're out there make yourself known, I mean  
Because I'm looking for somebody Who gon' ride with me, die with me, cry with me, oh yeah  
Live with me, who gon' go with me, till the end with me  
That's the kinda girl that I need She don't want my money, she just wants me only  
And I when I need loving, she quick to put it on me  
Mami's a soldier and a roller I mean and that's just the girl I need La dee dee, la dee dee dee, la dee day  
If your out then girl I'm on my way  
La dee dee, la dee dee dee, la dee day  
I'm find you one of these days I said I got, I got the material things  
But that don't matter, I trade it all, if I can have her  
Perfect girl in my life that will make it right I need a girl with finess look, good in a dress to kiss and caress  
I need a woman with less drama stress no fethumaness  
I need a female who would know  
What to do when the cops come through  
Who if things get dim she'll put on her timbs and roll with the crew I need a girl who smart who thinks  
With her heart when things falling apart  
I need a girl if I need a pint of blood she'll donate a quart  
I need a lady who will trust me when I'm out at night  
One who when it's my darkest hour shes my ray of light She don't want my money, she just wants me only  
And I when I need loving, she quick to put it on me  
Mami's a soldier and a roller and that's just that girl I need La dee dee, la dee dee dee, la dee day  
If your out there girl I'm on my way

La dee dee, la dee dee dee, la dee day
