Little World

Cryptic Slaughter

Superior attitudes
Change the way to think
If you don't get your way
You'll just sit back and sulkDo you know who I am?
Do you really care?
You think you've got me figured out
You think your world is fairYou live your little world
That's what I don't get
You make it all for yourself
So no one else can fitYou are the majority
The world consists of you
We'll just wait and see
Who's been played the fool
