

Howard Unrah (What Have You Done Now?)

Macabre

He was an expert at shooting guns
And in the army he had much fun
He had great aim and seldom missed

Killing the Nazis as he made his death listHoward Unrah, what have you done now?

Took thirteen lives in twelve minutes time

Howard Unrah, with your gun you

Shot thirteen down as you walked through the townHis neighbors gave him problems

While day after day, he practiced with guns

They stole his new gate, made him so pissed

Then he gunned down the people on his shit listHoward Unrah, what have you done now?

Took thirteen lives in twelve minutes time

Howard Unrah, with your gun you

Shot thirteen down as you walked through the town
