You a pussy ass nigga you be hoping for a cop out
Got a nine and a clip put a nine on your hip
Keep talking that shit, knock 5 on your lip
G-Ride ski masks colored rags contraband in bags
Focused on enemies in jags big sips out our flasks
We faded who next to get famous
Them bangers get banging that barrell keep changing like click click
Shit, I wish a nigga would feeling fucking good
Crack and scramble up your hood get it understood

Ain't nothing sweet about rumbling with beasts
You don't need water to travel through the seas
Unravel the backwoods and crumble up the trees nigga please
Your stuck missing now homie feel the breeze
These bullets burning gon' be hard for you to breathe
These bullets burning damn near possible to bleed
Off that alcohol that nozzle flammable

Pussy, I split you like camel toe
My shoelaces matching my flannel
We be loading up ammo
Yall be making them channels
Yellow tape by them candles
Gang members with killers 3's on our agendas
Real niggas finger so niggers play they 9 triggers
Facial expressions say surrender when that iron enter
Lay back recline nigga
