

Whenever I See You

Steve Wariner

I see rainbows on a cloudless day
I see an angel with a smiling face
I see a future where my dreams come true
I see forever, whenever I see you
I see forever I see family gathered all around
I see roses and a long white gown
I see the moment when you say I do
I see forever, whenever I see you
You make my whole world come alive
When I see it through your eyes
You make me take a better point of view
I see forever, when we're together, whenever I see you I see a million ways I'm blessed
I see nothing but happiness
A glimpse of heaven would be deja vu
I see forever, whenever I see you
You make my whole world come alive
When I see it through your eyes
You make me take a better point of view
I see forever, when we're together, whenever I see you You make me take a better point of view
I see forever, when we're together
Yeah, I see forever, whenever I see you
