

# Let the Rain Fall

[Ann Nesby](#)

When my soul was lost, there was no one around  
But You were there for me when the rain came down  
Into every sunny day, a little rain must fall  
And without the rain upon us, would we ever grow  
Like so many others, I was too afraid of change  
'Til I put my trust in You, You took away my pain  
I allowed my fears to take hold of me  
Had nowhere to run 'cause I was too deep  
Let the rain fall down on me  
Let the rain fall down on me  
Let the rain fall down on me  
Waited for a better day that seems so far away  
Even though my faith was shaky  
You showed me the way  
I was searching for a way that I could make it through  
Figured out what I did wrong  
I didn't trust in You  
I allowed my fears to take hold of me  
Had nowhere to run 'cause I was too deep  
Let the rain fall down on me  
Let the rain fall down on me  
Let the rain fall down on me  
Let the rain fall down on me  
Doesn't really matter how hard the rain is gonna fall  
'Cause through any weather  
There's someone I can call  
Storm clouds may rise  
Strong winds may blow  
You said You'd never leave me anywhere I go  
I allowed my fears to take hold of me  
Had nowhere to run 'cause I was too deep  
Let the rain fall down on me  
Let the rain fall down on me  
Let the rain fall down on me  
Let the rain fall down on me
