# It Takes Two

## Darden Smith

The magic of love
Nobody knows how the trick is done
It's the sleight of hand, the woman and man
The power of one plus oneIt takes two, it takes two
Any less than that won't do
To make love it takes twoI spent some time on my own
And it sure was rough
It made me strong but all along
I was dreaming of a lovers touch'Cause it takes two, it takes two
Any less than that won't do
To make love it takes twoIt takes two
Girl, you know it's true
To make love it takes twoSince I met you everything adds up
If we were divided now
Well, I wouldn't amount to muchIn the Garden of Eden it was Adam and Eve
Throwing caution to the wind
It's just like you, just like me
So baby, it ain't no sinIt takes two, it takes two
'Cause any less than that won't do
To make love it takes twoIt takes two
Girl, I want you
To make love it takes two
