

# Tears In The Rain (Extended Version)

N-Trance

I remember when the skies were blue  
All I wanted was to be with you  
Now the days are dark and I'm alone  
Dreaming of the place I call my home[Chorus]  
Hold me now, in your arms  
the love I lost, you never found  
I close my eyes, and think of you  
alone again, tears in the rain The day you stole my heart it felt so true  
When you threw it back it broke in two  
Until the storm inside me fades away  
I'll be waiting for a brighter day[Chorus]
