Electrified

Lisa Germano

Play the day again
They're probably watchin'
Try to hang around
Wait till you feel upAre you electrified?
Senses are sensing
Time doesn't matter here
Love is around themCareful not to spin
Into the waves again
You can't get rid of 'em
They're all around hereAre you electrified?
Shiftin' and playin'
Do you remember when
Playing was everythingRules and punishment
Play for the wicked
Shock to the system
Fear isn't everythingAre you electrified?
Seeing is seein'
Just hang around here
Breathing and breathingThey're probably anywhere
Clearing the atmosphere
Are you electrified?
Communicating
Senses are sensing
