Change Nothing

Jessica Sanchez

Everyday I'm waking up to dejavu
Someone's always telling me not to stick with you
Could it be the nights we've spent a fixing us
I never thought that we we're really that messed up
Should've shut my mouth and kept it all to myself
Cause now they've got me feelin' I should be with somebody else
They say we dont fit together
And I could do better
There's always something
They dont know the hell we've been through
Cause when you hold me like you do
That's when I want to change nothing
There are times when would kiss with bitter lips
It dont matter when the good ones taste like this
Or maybe we we're broken more than ones or twice
What we got bad or not I'm not gonna compromise
Should've never let their words get under my skin

Cause all I ever wanted was to find a way through this
They say we dont fit together
And I could do better
There's always something
They dont know the hell we've been through
Cause when you hold me like you do
That's when I want to change nothing
That's when I want to change nothing
Should've shut my mouth and kept it all to myself
They say we dont fit together
And I could do better
There's always something
They dont know the hell we've been through
Cause when you hold me like you do
That's when I want to change nothing
Oh That's when I want to change nothing
That's when I want to change nothing
That's when I want to change nothing
