

# It Makes No Difference Who We Are

## Celldweller

I am still here waiting  
I'm anticipating  
While they are orchestrating  
To grant the wish that I am making No price to great no distance too far  
If I can wish upon a Blackstar  
It makes no difference where they are  
They'll grant my wish upon a Blackstar We are all here waiting  
We're anticipating  
While they are orchestrating  
To grant the wish that we are making It makes no difference who we are  
It makes no difference who we are  
No price to great no distance too far  
If we can wish upon a Blackstar  
It makes no difference who we are  
When we have wished upon a Blackstar  
When we have wished upon a Blackstar  
When we have wished upon a Blackstar
