

# Stay Awake

## Young Prisms

I could fall in love with you  
But it's not my fault  
'Cause you are the prettiest thing I've seen  
When you're fallen asleep in my arms  
Oh my, oh my, oh my  
So just stay awake for me  
'Cause I can't fall asleep  
So just stay awake for me  
I'll give you anything  
To just stay awake, make love to me  
So maybe all you'll ever need  
Is right inside these arms  
Whole and you're so damn tired and conditional  
As you're fallen asleep in the dark  
Oh I, oh my, oh my  
So just stay awake for me  
'Cause I can't fall asleep  
So just stay awake for me  
I'll give you anything  
To just stay awake and make love to me  
There's nothing I won't try  
To keep your body close to mine  
And baby, hold on tight  
It's a wild open ride  
Give me all you got tonight  
And stay awake with me, stay awake  
Give it all you got  
Just stay awake for me  
'Cause I can't fall asleep  
So just stay awake for me  
I'll give you anything  
To just stay awake, make love to me  
Oh, just stay awake, make love to me  
Make love to me  
Make love to me  
Make love to me
