

# Another Day

## WhoMadeWho

La la la la La la la la  
La la la la La la la la  
Now she believes in miracles  
and everyrthing that's beatiful  
the tragic and electrical  
she bring me peace of mind  
She cares for me and helps me out  
She knows what I'm dreaming of  
Another day  
A moment to remember  
A quiet morning that sums up all of my life  
Another dream  
Until I surrender  
With all my longing  
I won't be satisfied  
La la la la La la la la  
La la la la La la la la  
When I'm down and all alone  
She call me on my telephone  
Remind me of the hollow points  
That I'm left behind  
She'll wisper softly in my ear  
and tell me what I wanna hear  
We'll burn up in the atmoshpere  
Another day  
A moment to remember  
A quiet morning that sums up all of my life  
Another dream  
Until I surrender  
With all my longing  
I won't be satisfied  
La la la la La la la la  
La la la la La la la la
