

# When The Sun Goes Down In Ga

[Corey Smith](#)

I fell in love at a glance  
Should've known I'd never have a chance  
To be with you in the long run  
You have a plan I am not in  
You're gonna move up north to live again  
Whenever school is over So I have to let you go  
But before you leave me here  
There's something you should know  
When the sun goes down in Georgia  
I'll be driftin' back in time  
Wishin' love could've changed your mind  
And when the moonlight shines through the pine trees  
I'll get lost in memories  
Dreaming you are here with me  
Oh it's sad but true  
I'm just your love-sick fool  
So when the sun goes down in Georgia, oh  
I'll be missin' you I bet you never had a clue  
But I'd do anything to be with you  
I'd leave this place in a heartbeat  
I'd move away from my sweet home  
Just to be your faithful tag-along  
I'd follow you forever  
But if you're better left alone  
I'll do my best to understand  
Still my love will linger on Cause when the sun goes down in Georgia  
I'll be drifting back in time  
Wishin' love could've changed your mind  
And when the moonlight shines through the pine trees  
I'll get lost in memories  
Dreaming you are here with me  
Oh it's sad but true  
I'm just your love-sick fool  
So when the sun goes down in Georgia, oh  
I'll be missin' you Oh it's sad but true  
I'm just your love-sick fool  
So when the sun goes down in Georgia  
I'll be missin' you
