

Give It Away

Cavo

I'm a ...that you open fire in the night
A flame that you can't burn out
I remember you said ... the voice in my head
And the feeling is gone from your eyes, far away
Away, away, away, away, don't let it kill you from the inside Breathe it in, breathe it out, let it all fall down
Let it go, let it go, whoa, give it away, let it go
Just give it away, away, let it go You're the lies ...to blame, you're the first one to lie
The words that you can't drown out
I remember the day when your moment was changed
And the ... it is gone from your eyes, far away
Away, away, away, away, don't let it kill you from the inside Breathe it in, breathe it out, let it all fall down
Let it go, let it go, whoa, give it away, let it go
Just give it away, away, let it go
One last time, one last call
No more lies, say you ...
One last time, one last call
No more lies, say you ... Breathe it in, breathe it out, let it all fall down
Let it go, let it go, whoa, give it away, let it go
Just give it away, away, let it go.
