

Our Mystery

Bebo Norman

Feels like a brand new day
And I know I'm not the same
'Cuz I see you and I need you
And I know I couldn't leave you
If I tried to walk away Your love won't bring me down I'm living that long, long life
And I will not let you go
It's taken a long, long time to get here It could be a long, long life
But I will not let you go
'Cuz love will be our mystery So let's leave this world behind
And see what we can find
'Cuz I don't need it but believe it
And I know I couldn't keep it if I tried
'Cuz you changed my mind Your love don't bring me down I'm living that long, long life
And I will not let you go
It's taken a long, long time to get here It could be a long, long life
But I will not let you go
'Cuz love will be our mystery Our mystery, our mystery
We won't be alone I'm living that long, long life
And I will not let you go
It's taken a long, long time to get here It could be a long, long life
But I will not let you go
'Cuz love will be our mystery Our mystery
Our mystery
