Seventh Heaven

Peter Wolf

Let me sleep no need to worry
Draw the blinds against the light
Like the moon I'm in no hurry
Drifting slowly through the night
The radio's playin' soft 'n low
Pulls me in and lets me goThis time is the last time
And I know
That I'll never let it go
No way is the sure way
And it's true
Still it's true
Though each link remains
I just got to break this chainTo seventh heaven - don't wanna come down
From seventh heaven - turnin' me 'round
If it's just for a minute
Or the rest of my days
It'll be alright
Let it be tonight
Gotta fade away to seventh heavenDon't leave me here this morning
Lie down and stay awhile
If my disappointments could be measured
They'd stretch further than a mile
And if there's a slow boat goin' nowhere
Let's climb on board, let it take us there
