

Happy Now

Beatsteaks

I'll take care of you, I'm your one and all
We belong together, baby
Whenever I call, grab my fingers
Grab my hand, grab everything you can
'Cause I'm the best friend you ever had Are you happy now?
C'mon play that game and bring me down
Are you happy now?
I know you and I'm not your clown I don't know what you're talking about
But I know what's good for you
Hey now, I'll give you everything
And tomorrow you'll get the rest
