Lost Somewhere

Tanlines

You got lost somewhere upon my coat feels frozen
You got caught out there, you feel like cold wind blowing
And I know where, all our roles are chosen
They all compare, they all compareYou know them, you know them
I show them, I show themChorus:
You know there's an answer
You know that I won't leave without a fight
You know there's an answer
You know that I won't leave without a fightAnd I prepared to speak the words I've spoken
You stood and said, you watched that green grass rolling
Be not quite there, down the roads I've chosen
They all compare, they all compareYou know them, know them
I show them, I show themChorus:
You know there's an answer
You know that I won't leave without a fight
You know there's an answer
You know that I won't leave without a fightNeed some more, need some more, gimme a sign 5x
