

Ask the Magic 8 Ball

Less Than Jake

What the fuck, the fuck have I become
I've become the product of the sum
Caught in this endless circle
I've become the stupidest man in the world
Chalk another one up to experience yeah
You know it doesn't make any sense
Do it, all over again
And again, again, do it all over again
I've become the stupidest man and I think I'm drawing a blank again
Dizziness never seems to end
Never seems to end, no it never seems to end
Drunk and sitting, and thinking yeah
Change, always seems to come when I'm thinking
Chalk another one up to experience yeah
You know it doesn't make any sense
Do it all over again
And again, again yeah do it all over again
I've become the stupidest man and I think I'm drawing a blank again
Dizziness never seems to end
Never seems to end, no it never seems to end
Drunk and sitting, and thinking yeah
Change, always seems to come when I'm thinking
What the fuck the fuck have I become
I've become the product of the sum
caught in this endless circle
I've become the stupidest man in the world
Chalk another one up to experience
You know it doesn't make any sense
Do it all over again
And again, again yeah do it all over again
I've become the stupidest man and I think I'm drawing a blank again
Dizziness never seems to end
Never seems to end, no it never seems to end
Drunk and sitting, and thinking yeah
Change, always seems to come when I'm thinking
