

# I Wanna Hold You

McFly

Tell me that you want me, baby  
Tell me that it's true  
Say the magic words and  
I'd destroy the world for you

An army for the broken hearted  
Marching through the streets  
And every city's burning  
To the ground under your feet

I wanna hold you  
My skies are turning black  
(Feels like a heart attack)  
And I'd do anything you ask  
I wanna hold you bad

I'd melt the polar icecaps, baby  
And watch them flood the earth  
And I'd do anything to show you  
What your love is worth

So, won't you show me your devotion  
To heal my aching heart?  
It's like a neutron bomb explosion  
Tearing me apart

I wanna hold you  
My skies are turning black  
(Feels like a heart attack)  
And I'd do anything you ask  
I wanna hold you bad

Attention please  
We interrupt this program  
With some disturbing news  
A worldwide evacuation

We're going to lose  
And they've pulverized the nation

I guess it shows us just what love can do

I wanna hold you  
My skies are turning black  
(Feels like a heart attack)  
And I'd do anything you ask  
I wanna hold you bad, bad, bad

I'd do anything you ask  
I wanna hold you bad
