

Broken Open (feat. Michael Travis & Kat Factor)

The Human Experience

Broken Open - The Human Experience (feat. Michael Travis & Kat Factor)

This is an age old story
Old man once a boy
First touch of a woman
Leave a poor kid broken
Raw sugar so sweet
Rocking out to the same beat
It was destined to be I needed to be broken open

Rocking through a cloudy day
And I've been
Smoking through the month of may
(And I've got)
Thinking bout times long ago
And I've been
(And I've got)
Rocking through a cloudy day
And I've been
Smoking through the month of may
(And I've got)
Thinking bout times long ago
And I've been

We were two birds in a cage
Living with the door wide open
She said she never saw the bars
They needed to be broken open
And one day she left him barely said goodbye
Cupid must have let another arrow fly
And you know the time will fly by
When you wont feel oh so broken

Rocking through a cloudy day
And I've been
Smoking through the month of may
And I've been
Thinking bout times long ago and Iâ€™ve been
Rocking through a cloudy day
And I've been

Smoking through the month of may
And I've been
Thinking bout times long ago
And I've been

And thank you for the scars you've burned
And thank you for the lessons earned
And thank you for the love I've learned
To help me become broken open

Rocking through a cloudy day
And I've been
Smoking through the month of may
(And I've got)
Thinking bout times long ago
And I've been
(And I've got)
Rocking through a cloudy day
And I've been Smoking through the month of may
(And I've got)
Thinking bout times long ago and Iâ€™ve been
