what's left

papercranes

Here's to what you've got left,
And here's to what you think is best,
I hope what you're looking to find will be what you really desire,
Only you hold you back,
Well, so far,
And only you break your heart,
Well, so far,
Ahead, you're ahead in the race,
Looking back will just get in your way,
You can just stand up and let them hear you out,
Break the chain, it's a shame if you never get out,
Only you hold you back
Well, so far,
And who's gonna break your heart?
Cause this time you fall,
You fall so hard,
And there's someone there to catch you,
If change is so hard,
How come you're changing?
It's strange, you can see how hard,
It is waiting,
Only you hold you,
(You)
Back,
(Back) (x4)
Hold you back,
If change is so hard,
How come you're changing?
Well, it's strange, you can see how hard,
It is waiting,
If change is so hard,
How come you're changing?
Well, it's strange, you can see how hard,
It is faking,
You can see how hard it is waiting,
You can see what I see
