

# Minimal Affection

## The Vaccines

In a world of minimal affection  
Can you give yourself in a word  
To a girl with a washed-out complexion  
She's a mutual friend of ours  
Anyone, anyone, anyone, anyone?  
Is there anyone there?  
You forget how to make a connection  
And you've wanted one for so long  
Moving on  
We don't have a lot in common  
When the world  
If you don't even know my name  
What is life if not for affection?  
Felt invisible, took too hard  
[?] and drove to distraction  
Is if everyone went away  
Anyone, anyone, anyone, anyone, anyone?  
Is there anyone there?  
Fall back and into the quiet  
Where I've wanted you for so long  
Moving on  
We don't have a lot in common  
When the world  
If you don't even know my name  
How am I supposed to hear you calling  
If I can't hear a word you say?  
How am I supposed to hear you calling  
If I can't hear a word you say?  
Moving on  
We don't have a lot in common  
When the world  
If you don't even know my name  
How am I supposed to hear you calling  
If I can't hear a word you say?  
How am I supposed to hear you calling  
If I can't hear a word you say?
