

# Just For You

## Traffic

A sea of green  
A sky of blue  
It's their time  
All things to do I see your face before me  
And I'm wondering is it you  
Looking through the window Where there isn't any view  
So I'm taking from the chandelier  
A crystal just for you The music plays  
The pheasant stays  
A plane in the sky  
Reality passing by
