No Doubt

Gideon's Army

You should know, no doubt, no doubt, no doubt, no doubt
You should know, no doubt, no doubt, no doubt, no doubt, no doubt
You should know, no doubt, no doubt, no doubt, no doubt
You should know, no doubt, no doubt
You should know by now that I really like when you're around
It's so irreplaceable, what we have with you and I
And you should know by now, that we belong on each other's team
One of the greatest things that came to be is you and me, you and me
I hope by now you recognize, no matter what I'm here for life
You ain't getting rid of me, that is just the bottom line
I think you understand by now, we can always work it out
No matter what, I'm down, I'm down
There ain't no doubt that I still love you
No doubt, I love you babe, really, really love you, babe
There ain't no doubt that I still want you
No doubt, I want you babe, really, really want you, babe
Shouldn't be no doubt that I'm here for you
No doubt, I'm here for you, really, really here for you
I have no doubt about being with you
It's me for you
Thinking back on what I did to cause you so much pain
It was such a silly thing I did to our relationship
But here's something from the heart, I really do apologize
Don't cut me off 'cause I really love you
I love you babe, love you babe
And I want you, I want you babe, want you babe
Said, "I'm here for you", for you babe, for you babe
Forever I'm with you
Baby, can't you see you belong with me
I'll be here for you, so I'm telling you
There ain't no doubt that I still love you
No doubt, I love you babe, really, really love you, babe
There ain't no doubt that I still want you
No doubt, I want you babe, really, really want you, babe
Shouldn't be no doubt that I'm here for you
No doubt, I'm here for you, really, really here for you
I have no doubt about being with you
It's me for you
Look baby, I want you to know I love you

And I always will, don't worry, 'cause you know
There ain't no doubt that I still love you
No doubt, I love you babe, really, really love you, babe
There ain't no doubt that I still want you
No doubt, I want you babe, really, really want you, babe
Shouldn't be no doubt that I'm here for you
No doubt, I'm here for you, really, really here for you
I have no doubt about being with you
It's me for you
You should know, no doubt, no doubt, no doubt, no doubt
You should know, no doubt, no doubt, no doubt, no doubt, no doubt
You should know, no doubt, no doubt, no doubt, no doubt
You should know, no doubt, no doubt
