

Only Got One

Frou Frou

If this is a question
Is maybe, a lie?
If yes doesn't mean it
Does when lessen why You are held in a cue
Someone will be with you shortly
Say I'm wrong, you decide
I don't believe the words you sing sometimes But then it's your life
It's your life
But then it's your life
It's your life But, you've only got one
You've only got one
But, you've only got one If I chose to spite you
Engage your disgrace
Will song turn to silence
Will mud spray your face Are you down to be open?
Show me yours and I'll show you mine
Or are you down just to be down?
I don't believe the words you sing sometimes But then it's your life
It's your life
But then it's your life
It's your life But then it's your life
It's your life You've only got one
You've only got one
You've only got one Your, your life
Your, your life
Your, your life
Your, your life But, you've only got one
You've only got one
But, you've only got one You've only got one
But, you've only got one
