

# Mainliner

## Social Distortion

Nothing she can do, she's so confused  
Something should be done but she'll refuse  
She's got a new fix to ease her pain  
She's got a new fix to control her brain Oh no, no, no, mainliner, mainliner  
Out of frustration, she unwraps the foil  
Takes out her spoon, starts to boil  
She used to be pretty to all her friends  
But the hypodermic needle took her to the end Oh no, no, no, mainliner, mainliner  
She's boiling up, always in heat  
Stick it in again, just to keep her beat  
This time she'll try a little more  
This time we found her on the floor Oh no, no, no, mainliner, mainliner
