

Bringing Me Down (feat. Ruelle)

Ki:Theory

(Ruelle)

It's just like you
To go and wear me down
Down to core and all that's left is an empty battleground
It's just like me
I'm always keeping score
Back and forth until it hurts and you can't take it back now
Oh you're bringing me down

(Ruelle and Ki:Theory)

(Ki:Theory) She's nothing to me
You're bringing me down
(Ki:Theory) You are all I need
(Ki:Theory) I'm begging please
You're bringing me down!

(Ruelle and Ki:Theory)

I'm caught in between
All your empty words
And all of the things we've done to erase who we once were
You can't look back
Once you're this far gone
You can't see the end when you can't even tell what's right from wrong
Oh you're bringing me down
(Ki:Theory) Please babe just don't leave
Bringing me down
(Ki:Theory) It would destroy me
(Ki:Theory) I'm on my knees
You're bringing me down!
