Nightbird

Cory Sipper

Night Bird

Every time I hear the sound of the wings go by its the Night Bird
The storm is quiet, Iâ€™m wide awake with my heart on fire

And if you want to talk Iâ€™ll tell you I donâ€™t mind at all
Weâ€™ve been around and we have learned
All the old replies, all the old words
We can keep on repeating what we've heard or
We could sign along with the Night Bird

Weâ€™re so tired from another day and can not sooth each other
And thereâ€™s a song bright and sweet coming up through the thunder.

Chorus

Once you hear the song you know youâ€™ve been singing it, singing it singing it all along
Life will set you free you must just keep singing it, singing it singing it with me.

Every night I hear the sound of the wings go by and my heart swoons
Iâ€™m up and quiet and I know that we can carry this tune.

Chorus
