Underachievers

Junkie XL

It's the conformist
takin' the firm fist
of the idealist
taken the shitlist.
And now, the purist stays the purist
till the shit hits the fan of the culprits
and then the lawyer
will destroy a
motivation to become the purist
and the terrorist
is really fed up with.
Nothing strategic
to beseige with
and supremacists
touch the surface
with their racist hatred. That glues eyelids.
Those with politics
all polite on tricks
cripple the masses on the road to riches.
Underachievers
united,
why fight it,
can't hide it.
