# Just One

## Paul Tabachneck

I wanna live, I wanna leave
I wanna open up and breath
I wanna go, I wanna be
I wanna feel it constantly
Gotta show, gotta stay
I've gotta feeling that won't go away
I've gotta know, if they got away
My opportunities
Just one
Chance is all I ever wanted
Just one
Time I'd like to win the game
From now on
I'd take the chance if I can have it
Just one, just one
I need to think, I need to feed
I need to see if I still bleed
I need a place, I need a time
'Cause I need to step outside that line
Gonna give, gonna take
I'm gonna scream till I'm awake
I'm gonna budge, I'm gonna budge
Open up the door
Just one
Chance is all I ever wanted
Just one
Time I'd like to win the game
From now on
I'd take the chance if I can have it
Just one, just one
And if I knew when the door was open
I'd go through, I would go on through
And I can say what I do never be the same
Never be the same
Just one
Chance is all I ever wanted
Just one
Time I'd like to win the game
From now on

I'd take the chance if I can have it
Just one, just one
Just one
I'd take the chance if I can have it
Just one
I'd take the chance if I can have it
Just one
Yes I'd take the chance if I can have it
Just one, just one
