

I'll Make It Right with You

Sylvia

When her love turns as cold as December,
When you try not to cry, but you do,
When it all turns out wrong, just remember,
That Ill make it right with you. When her lips turn away when you kiss her,
When she speaks and you know its not true,
When shes there and you already miss her,
Ill make it right with you. CHORUS:
Ill make it right with you.
Ill give you more love, than you ever knew.
Our bridge didnt burn.
You can always return,
And Ill make it right with you. When her eyes say her hearts just not in it,
When her arms reach for somebody new,
Dont ever forget for one minute,
That Ill make it right with you. [CHORUS]
Darling, Ill make it right with you.
