

What You're Looking For

Stacia Petrie

You say the road's calling your name
Life at home with me is much too tame
While you run, I'm here all alone
I hope you find what you're looking for

I hope you find you're looking for
and fate is kind to you in your search for more
While you run, I'm here all alone
I hope you find what you're looking for

In time, you'll drop me a line
Just a little more time away and you'll be fine
All this time gone, I'm still holding on
I hope you find what you're looking for

I hope you find you're looking for
and fate is kind to you in your search for more
All this time gone, I'm still holding on
I hope you find what you're looking for

You say you'll come back a better man than before
Don't you know I love the man who left a year ago?
All this time gone, are you ever coming home?
I hope you find you're looking for

I wish I was what you're looking for
Right here, under your nose, how could you want more?
All this time gone, I'm still hangin on
I hope you find what you're looking for

Do you know what you're looking for?
And no, you never left from my front door
You were so gone, but you were here all along
I don't know what you're looking for

Do you know what you're looking for?
