Passion Play

Loudon Wainwright III

It's a wonder and it's a miracle it turned out this way
After all this time I'm yours and you're mine, we're together today
I was such a fool to be so afraid of that thing they call love
I forgot my fear we're standing here, what was I afraid of?Can't quite get enough so we strut our stuff acting our lives away
Life's a tragedy and it's a comedy but it should be a passion play
We're off of the book we're gonna leap and not look and what happens now is unknown
Yes I caved but I feel saved cause now I'm not aloneEverything is crazy-tell me something new
Ceases to amaze me I'm standing here with you(non word vocal sounds)In the final act I know it's a fact that the curtain will fall
When the play is through I'll be next to you
We'll be takin' ou curtain call
We're gonna hang up the costumes, take off the make up, shut the dressing room door
Then it's me and you 1 disguised as 2 and twice as good as beforeEverybody's crazy-tell me something new
Ceases to amaze me I'm standing here with youIt's a wonder and it's a miracle it turned out this way
After all this time I'm yours and you're mine, we're together today
I was such a fool to be so afraid of that [crazy] thing they call love
I forgot my fear we're standing here, what was I afraid of?
I forgot my fear we're standing here, what was I afraid of?
