Please

Noah Young

I've been going off the deep end
Keep thinking about last weekend
I met a girl that made me feel free
They all say I'm going crazy
But this girl was so amazing
Until she said that she had to leave
She was leaving. Couldn't let her get away
And she was leaving. What was I suppose to sayPlease. I'm not one for begging
But you got me on my knees
Don't you leave
Tell me what I could say
Baby baby please stayGet the mood right come a little closer
Stay with me because the party isn't over
Why you saying this night is done
If you decide to change your mind I'll be waiting
Take a chance do a dance little lady
Because the night has only begun
She was leaving. Couldn't let her get away
And she was leaving. What was I suppose to sayPlease. I'm not one for begging
But you got me on my knees
Don't you leave
Tell me what I could say
Baby baby please stayPlease don't go the sun won't rise until we say so
Please please stay if you try to go you'll here me sayPlease. I'm not one for begging
But you got me on my knees
Don't you leave
Tell me what I could say
And I could say just to stay here with me
Please. I'm not one for begging
But you got me on my knees
Don't you leave
Tell me what I could say
Baby baby please stay
