

All the Glory (Andy Tylo Durban Club Mix)

Mi Casa

Sunday morning
Once again
I'm feeling fresher
For the morning
Searching for glory, glory
I lift my hands up to the sky
I give them praise Sunday morning
Once again
I'm feeling fresher
For the morning
Searching for glory,
Searching for glory
I lift my hands up to the sky
I give them praise
Stand together
Bare his name
Bare his name
From now till forever
We'll proclaim
Proclaim his name
He alone is glory
He alone is worthy All the glory
He is the glory In the morning
All the glory
Or later in the evening
All the glory
We will bring you all
All the glory
For you alone
Your worthy Lord
All the glory
All the glory
We shall you with lessons
All the glory
And every mouth and tongue
Confess that
He is the Glory 2 Before we give him more
All the glory With love and with prayers to you Lord
All the glory

We bring praise to the glory
All the glory
Give him all that you can, Lord
All the glory
Till your soul can sing no more
All the glory
Oh sing it with me now,
He is the glory³
All the people in the building
Need to know
All the people in the building
Need to show Everybody needs to know
All the people
Before we give him more
Yes we give him more
Yes we give him more glory
Before we give him more
We praise him all night
We give him more than we've got
For he is
He alone is worthy
There is no other name
No, there is no other name
